TENFORCE EHSQ SOFTWARE

Work Safely.
Protect the Environment.
Strive for Excellence.

One tool to keep track of what's important.

TenForce is the EHSQ software made for those who strive for excellence. Excellence in operating safely, respecting the environment, and protecting the well-being of their employees, contractors, and communities in which they are active. It's not an easy task, so we want to make sure you have the best tool at your disposal.

Scaling from simple to the most demanding customer needs, the TenForce modules can be fully customized to fit company standards exactly.

| AUDITS | INCIDENT MANAGEMENT | COMPETENCE MANAGEMENT | MANAGEMENT OF CHANGE | RISK MANAGEMENT |

Occupational health • Safety management • Environmental management
Quality management • Business intelligence

| PERMIT TO WORK | QUALITY MANAGEMENT | DOCUMENT CONTROL | MECHANICAL INTEGRITY | CORRECTIVE & PROTECTIVE ACTIONS |

Right from the start, TenForce comes with a standard set of powerful features.

| Configurable Forms and Workflows | Business Intelligence (Power BI) | Mobile & Offline Accessibility | 24/7 Support |
| Real-time Reports & Dashboards | Automated Alerts & Notifications | Secured Data Environment | Training Platform |

TenForce is a dynamic company on a mission to deliver cutting-edge software products, in a pragmatic way. Learning from our customers, our software maps their day-to-day operational reality. We help organizations across the world to better integrate and understand safety-related data, for true insights into issues affecting people and processes. The result? More proactive safety management across the board while keeping employees safe.
