

# Compliance Management

## Turn complex regulations into manageable to-dos

### Skip the line-by-line interpretation

Turn dense legal requirements into easy-to-track tasks, so your team knows exactly what to do, and when. Plus, you'll keep up to date with all the latest changes.

### Set it once, then stay on track

Create recurring tasks with built-in ownership. The right people get notified, and the work gets done without the endless follow-up.

### Get a full view of compliance

Use the timeline view to spot what's planned, what's due, and what's overdue across all sites and teams. It's color-coded for clarity, so you can act fast when it counts.

### Stay audit-ready

Every task is logged with timestamps, ownership, and status changes so you have full traceability from requirement to resolution when audit time comes around.

# Actionable and automated: The TenForce Compliance Management process

## 1. Find the right rules

✓ Get the right regulations for your sites by answering a few quick questions with Enhesa or your own regulatory content provider.

✓ Turn those requirements into clear, trackable tasks without digging through legal texts.

## 2. Automate tasks

✓ Set up automated workflows for audits, reports, inspections, samples – whatever your team needs to stay compliant.

✓ Assign tasks, upload documents, and set priorities in just a few clicks.

✓ Choose how often tasks should repeat, and we'll handle the reminders.

## 3. Stay on track

✓ See every task in a simple, color-coded calendar so you know what's coming up, what's overdue, and what's already done.

✓ Filter by topic, team, or location to focus on what matters most.

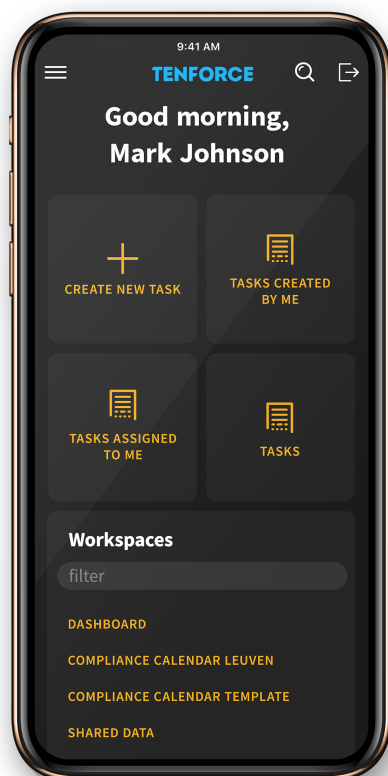

✓ Spot gaps early and stay ahead of risk and keep your compliance program running smoothly.

## 4. Close the loop

✓ Connect with TenForce Audit Management to plan, perform, and track audits from start to finish.

✓ Use TenForce CAPA Management to investigate root causes and take action fast when something goes off track.

✓ Maintain full traceability from requirement to resolution, so you've got the full picture when you need it.

# 0

### missed deadlines

See upcoming and overdue tasks at a glance with automated alerts and color-coded timeline view.

# 90%

### less time spent on routine compliance tasks

Set a recurring task in under a minute.
